- Evangelism, delivering lectures and tech talks, trainings to engineering faculty, workshops to introduce students to cutting edge technologies. Selected as one of the Best Performing Indian MSPs to represent the nation at Global MSP Summit 2016.

EDUCATION

WATUMULL INSTITUTE OF E.E. & COMPUTER TECHNOLOGY, MUMBAI UNIVERSITY **Mumbai, India**
Bachelor of Engineering in Computer Engineering **2013-17**

- CGPA: 7.90, SGPA: [8.22, 8.22, 7.71, 7.68, 7.79, 7.83]

SAKET JUNIOR COLLEGE **Thane, India**

- HSC Class XII: 75.33%, JEE Mains: {Physics:85, Chemistry:21, Maths:43} **2011-13**

PETHE HIGH SCHOOL **Nashik, India**

- SSC Class X: 91.45% Semi English Medium and Sanskrit **2005-11**

PROJECTS

Autonomous Object Recognition Drone Rutvik **March 2017**

- Rutvik is a Flying machine with a quad-rotor structure which is capable of autonomously executing some paths of flight while collecting and analyzing visuals from onboard camera and its closed loop control system is aided by a gyroscope and accelerometer. It runs Linux and mission control and all hardware control is interfaced with Node.js web server making it a planet wide accessible drone via the internet.

Cloud Storage API in node **January 2016**

- Academic project which is aimed to turn any host on a network into a HTTP API service letting the user remotely manipulate files and manage directories on the host.

Project SARA and JRS bot **September 2015**

- Academic project solving the problem with standard methods of HR Managers hiring temporary workers. We used a mobile app and chat-bot for curation of workers which ensured the project to be a responsive communication model for instant requirement of manpower.

EXTRA CURRICULAR ACTIVITIES

- Represented India at Global Microsoft Student Partners Summit 2016, Seattle, WA, USA.
- Author of developer oriented course named "Getting Started With Azure Serverless Computing using Nodejs", published with Packt Publishing in Oct 2017.
- Delivered workshops and trainings for students and faculty in Engineering colleges on ioT, MongoDB and APIs, Cloud architecture and Full-stack development.
