Omkar Narayan Dusane

+91 9821850314 | omkardusane@gmail.com | omkardusane.github.io

TECHNICAL SKILLS

- Programming Languages: Good with Java, Java Script (nodejs), Familiar with C, PHP.
- Platforms/Frameworks: Node Js, MongoDB, PHP MVC Code-Igniter framework, Socket.io in Node, Linux Servers, JAX-RS Jersey REST API, Java Servlets, Tomcat7, MySQL.
- Technologies: AWS, Microsoft Azure.

EXPERIENCE

COIN Mobile Technologies Pvt. Ltd. **SINE, IIT Mumbai**
Software Developer Intern **September 2016 - Present**

- Developing a chat-bot named Paybycoin for p2p payments on slack. And also developing caching module for android
- Working with Nodejs MongoDB and Java.

DIKY – Do I Know You **Delhi, India**
Lead Full Stack Developer **April 2016 – October 2016**

- Developed the full native android application and a real-time chat component at DIKY: a reverse social network startup which is a personality mapping engine.
- I designed chat server instance with a highly scalable architecture to handle a large number of traffic at once and built it on Node.JS, MongoDB, Express JS and Socket.io Engine all being deployed on AWS-Ubuntu server.

QUICKWORK Technologies Pvt. Ltd. **Mumbai, India**
Software Developer Intern **May 2015 – September 2016**

- Quickwork is a startup aiming to solve employability problem in India. Joining at very early stage, I developed chat bots and databases to automate business processes involved using MongoDB and android apps.
- Watching the business get a grasp over the market, I was a part of a team of 3 engineers responsible for designing and building a MVP with an employee performance measurement app called 'quickwork' (key product of the company) with its whole API and a CMS with modular backend capable of communicating with bots as emerging technology in early 2016.

MICROSOFT CORPORATION **Mumbai, India**
Microsoft Student Partner **August 2014 – Present**

- Evangelism, delivering lectures and tech talks, proctoring at hackathons, organizing workshops to introduce students to cutting edge technologies and helping them lead their projects. Selected as one of the 4 Best performing Indian MSPs to represent the nation at Global MSP Summit 2016 at Microsoft Headquarters, USA by Microsoft India.

EDUCATION

WATUMULL INSTITUTE OF E.E. & COMPUTER TECHNOLOGY, MUMBAI UNIVERSITY **Mumbai, India**
Bachelor of Engineering in Computer Engineering **2013-17**

- CGPA: 7.90, SGPA: [8.22, 8.22, 7.71, 7.68, 7.79, 7.83]

SAKET JUNIOR COLLEGE **Thane, India**

- HSC Class XII: 75.33%, JEE Mains: {Physics:85, Chemistry:21, Maths:43} **2011-13**

PETHE HIGH SCHOOL **Nashik, India**

- SSC Class X: 91.45% Semi English Medium and Sanskrit **2005-11**

PROJECTS

Cloud Storage API in node **January 2016**

- CS API is an academic project which is aimed to turn any host on a network into a HTTP API service letting the user remotely manipulate files and manage directories on the host. Resembling SSH, the system was intended to run over HTTP and thus giving restricted access and a level of abstraction from shell as compared to SSH or Telnet.

Project SARA and JRS bot **September 2015**

- Job Recruitment System and SARA was an academic project solving the problem with standard methods of HR Managers hiring temporary workers. We used a mobile app and chat-bot for curation of workers which ensured the project to be a responsive communication model.

EXTRA CURRICULAR ACTIVITIES

- Represented India at Global Microsoft Student Partners Summit 2016, Seattle, WA, USA. **July 2016**
- Delivered Tech-Talks and Workshops in 3 Engineering colleges on ioT, MongoDB and APIs **February 2016**
