MSP Mumbai: Tech Drive 2017

Hi, I am Omkar Dusane, a Microsoft Student Partner. I am pleased to have reached to you.

It's time for the **Tech Drive 2017**, a mission to introduce next generation technology and get everyone involved in the biggest revolution of the century which is going on currently in India.

As we know, Microsoft has been leading the tech industry and is the biggest contributor to most of development of the tech community. We thrive to welcome Educational institutes like Engineering and Business schools and Commerce and Arts colleges, Everyone to join the revolution. We encourage all educational streams to identify advantages of being equipped with the tech knowledge and offer the youth well established set of skills for the future

We make that possible through our Student partner talks and workshops, which are free of cost and just require you to get in touch with an MSP to collaborate. I (Omkar) Love to extend our mission of Microsoft with conducting the Tech Drive 2017.

We have following short sessions to offer for tech Drive 2017.

- Office 365: Microsoft Flow, Re-inventing productivity of business processes
- Kick start with Web apps and cloud technology.
- 'What one needs to get a software product up and Running'
- Planning and understanding software requirements and dev lifecycle for startups.
- Mobile Apps market and capabilities
- How businesses benefit from cloud
- Programming Basics/ Web techology

Let us know your thoughts. And we would Love to conduct events with your institute.

Thanks,

- **Omkar Dusane,**
